Tranquil Setting

Birds, Bees, Flowers, Trees

Let me tell you about the birds and the bees and the flowers and the trees, all sitting on a neat and tidy 4 acres with plenty of room to move and enjoy the outdoor landscaping and existing infrastructure, just waiting for you. This is your opportunity to secure your little piece of sanctuary away from the hustle and bustle of the city life. This property offers you plenty of room to move and enjoy all that acreage life can bring with the house tucked well off the street, providing a semi secluded retreat.

This steel frame, split level home offers you a neat and tidy living space with low maintenance floors and 3 generous bedrooms plus an office nook and separate dining and kitchen areas. The home has air-conditioning, ceiling fans and security screens throughout and a number of doors opening directly out to the verandah which wraps around 3 sides and offers a great outlook over the property. There are areas of the home that could do with a little make up and powder but nothing more than what will make this house your own home.

The existing infrastructure is definitely a feature and includes large garage and workshop space with power and attached double carport plus additional garden sheds, bird aviaries and alike. Lovely gardens where you can meander through and enjoy the peace and quiet as you pot up your plants, trim your flowers and prune the trees while you listen to the birds sing along.
